

Dokumentum szurrogátumok jó példa

Az alábbi találati nézetben jól alkalmazták azokat az elveket, amelyekről Hearst is ír. A szurrogátumban a cím, a különböző bibliográfiai adatok megadása és a talatok kiemelése látható. A találati dokumentumok megfelelő mondatait tartalmazza az összefoglaló, méginkább megkönnyítve a találat helyességének eldöntését. Az NFÜ oldalával ellentétben itt már az első találat a jó, továbbá itt rendelkezésre állnak a keresés módosításához szükséges eszközök is.
